Astm D 2513

Plastics Pipe Institute comparison of ASTM D2513 editions 99 vs 09a: Standard Specification for Thermoplastic Gas Pressure Pipe and Fittings, description of ASTM D2513 20141 1 This specification covers requirements and test methods for material dimensions and tolerances, hydrostatic burst strength, chemical resistance, and rapid crack resistance of polyethylene pipe tubing and fittings for use in fuel gas mains and services for direct burial and reliner applications. The pipe and, summary of substantive changes between the 2011b and the 2012 editions of ASTM D2513 polyethylene pe gas pressure pipe tubing and fittings, find the most up-to-date version of ASTM D2513 Redline at engineering360, summary of substantive changes ASTM D2513 page 1 summary of substantive changes between the 2014e1 and the 2016 editions of ASTM D2513 polyethylene pe gas pressure pipe tubing and fittings, ASTM D2513 standard specification for thermoplastic gas pressure pipe tubing and fittings, abstract this specification covers the requirements and test methods for material dimensions, hydrostatic burst strength, tensile strength, chemical resistance, and rapid crack resistance of polyethylene pipe tubing and fittings, find the most up-to-date version of ASTM D2513 Redline at engineering360, summary of substantive changes ASTM D2513 page 1 summary of substantive changes between the 2014e1 and the 2016 editions of ASTM D2513 polyethylene pe gas pressure pipe tubing and fittings, ASTM D2513 standard specification for thermoplastic gas pressure pipe tubing and fittings, abstract this specification covers the requirements and test methods for material dimensions, hydrostatic burst strength, tensile strength, chemical resistance, and rapid crack resistance of polyethylene pipe tubing and fittings. A standard specification for polyethylene pe gas pressure pipe tubing and fittings, ASTM D2513 09a standard specification for polyethylene pe gas pressure pipe tubing and fittings superseded see active link below, II medium density polyethylene yellow gas meets ASTM D2513 medium density polyethylene yellow gas, an American national standard designation D2513 04 standard specification for thermoplastic gas pressure pipe tubing and fittings, this standard is issued under the fixed designation D2513 the number immediately following the designation indicates the year of, standard specification for polyethylene pe gas pressure pipe tubing and fittings, need help chat now live chat free trial free trial, ASTM D2513 07b standard specification for thermoplastic gas pressure pipe tubing and fittings, American society for testing and materials superseded publisher American society for testing and materials category rubber and plastic industries rubber and plastics products fluid systems and components for general use pipeline components and pipelines fluid systems and components for general, 1 1 this specification covers requirements and test methods for material dimensions and tolerances, hydrostatic burst strength, tensile strength, chemical resistance, and rapid crack resistance of polyethylene pipe tubing and fittings. ASTM D2513 polyethylene pe gas pressure pipe tubing and fittings presented to the IAPMO standards review committee on April 9, 2012 general the changes to this standard will require additional markings for currently listed products the, ASTM D2513 11 standard specification for polyethylene pe gas pressure pipe tubing and fittings, thermoplastic pipe tube fittings specifications pressure testing plastic pipe tube chemical resistance plastics gas pressure systems applications specifications hydrostatic design basis HDB plastics specifications polyamide PA, ASTM D2513 87 standard specification for thermoplastic gas pressure piping systems, performance pipe gas pipe and fittings ASTM D2513 certified to here to print a copy of this flyer, Price list polyethylene fittings MDPE AMP HDPE fittings meet ASTM D2513 D863 D3261 Metfit fittings meet ASTM D2513 F1924 material designation codes and applicable standards, ASTM D2513 16a standard specification for polyethylene pe gas pressure pipe tubing and fittings 1 x00a0 this specification covers requirements and test methods for material dimensions, hydrostatic burst strength, tensile strength, chemical resistance, sustained pressure heat fusion and impact resistance of plastic pipes tubing and fittings used for direct burial and reliner applications in fuel gas mains and services, ASTM D2513 08 standard specification for thermoplastic gas pressure pipe tubing and fittings, chemical resistance plastics gas pressure systems applications specifications hydrostatic design basis HDB plastics specifications polyamide PA specifications pressure testing plastic pipe tube thermoplastic pipe tube fittings, this specification covers the requirements and test methods for material dimensions, hydrostatic burst strength, tensile strength, chemical resistance, sustained pressure heat fusion and impact resistance of plastic pipes tubing and fittings used for direct burial and reliner applications in fuel gas mains and services for the distribution of natural gas, ASTM D2513 08b historical standard ASTM D2513 08b standard specification for thermoplastic gas pressure pipe tubing and fittings superseded see active link below, ASTM D2513 16a standard specification for polyethylene pe gas pressure pipe tubing and fittings December 15, 2016 ASTM international 1 1 this specification covers requirements and test methods for material dimensions and tolerances, hydrostatic burst strength, chemical resistance, and rapid crack resistance of polyethylene pipe tubing, 2 for referenced ASTM standards visit the ASTM website www.astm.org or contact ASTM customer service at service ASTM org for annual book of ASTM standards volume information refer to the standards document summary page on the ASTM website, ASTM D2513 polyethylene pe gas pressure pipe tubing and fittings presented to the IAPMO standards review committee on May 7, 2012 general the changes to this standard should not require additional testing of currently listed products, ASTM D5039 92 2016 standard test method for relative molecular mass molecular weight of hydrocarbons by thermoelectric measurement of vapor pressure hydrocarbons molecular weight osmometer relative molecular mass thermoelectric measurement vapor pressure, unprotected outdoor exposure of at least 10 years per ASTM D2513 based on the tests conducted performance pipe, provides the following specific unprotected outdoor storage recommendations for performance pipes gas distribution piping products, please be aware that ASTM D2513 09a standard specification for polyethylene pe gas pressure pipe tubing and fittings has been found to have an omission in Table 4 Erratum 2, ASTM international standards catalog 2013 contents all standards under the jurisdiction of subcommittees E48 02 characterization and identification of biological systems and E48 03 unit, page 1 of 5 ASTM D2513 comparison of 1999 vs 2009 editions summary document background over the past fifty years or more the natural gas distribution industry in the
This specification covers requirements and test methods for material dimensions and tolerances hydrostatic burst strength chemical resistance and impact resistance of plastic pipes tubing and fittings used for direct burial and reliner applications in fuel gas mains and services for direct burial and reliner applications. The standard is issued under the fixed designation D2513. The number immediately following the designation indicates the year of initial adoption or in the case of revision, the year of the last revision. This standard is issued under the jurisdiction of Subcommittee E11 on Gas, which is under the responsibility of the American Society for Testing and Materials (ASTM). This standard is superseded by ASTM D2513-09, which includes revisions to the standard.
hydrostatic burst strength chemical resistance and rapid crack resistance of polyethylene pipe tubing and fittings for use in fuel gas mains and services for direct burial and reliner applications, 1 scope 1 1 this specification covers requirements and test methods for material dimensions and tolerances hydrostatic burst strength chemical resistance and rapid crack resistance of polyethylene pipe tubing and fittings for use in fuel gas mains and services for direct burial and reliner applications, ASTM D2513 polyethylene PE gas pressure pipe tubing and fittings presented to the IAPMO Standards Review Committee on April 9, 2018, general the change to this standard should not have an impact on currently listed products the, about ASTM International formerly known as the American Society for Testing and Materials is a globally recognized leader in the development and delivery of international voluntary consensus standards, Distribution Integrity Management Frequently Asked Questions revised or added since 7914c4a7 with the incorporation of ASTM D2513 09a for polyethylene, Summary of substantive changes between the 2012ae1 and the 2013 editions of ASTM D2513 Polyethylene PE gas pressure pipe tubing and fittings, 99 Edition Plastics pipe institute comparison of ASTM D2513 Editions 99 vs 09a updated June 29, 2011 09a Edition Standard specification for polyethylene PE gas pressure pipe tubing and fittings was revised to cover only PE and in 2012 two, 1 1 this specification covers requirements and test methods for material dimensions and tolerances hydrostatic burst strength chemical resistance and rapid crack resistance of polyethylene pipe tubing and fittings for use in fuel gas mains and services for direct burial and reliner applications the pipe and fittings covered by this specification are intended for use in the distribution, our category 1 fittings exceed the hydrostatic burst pressure and tensile strength of the polyethylene pipe and are designed to exceed ASTM F1973 specifications flange transition fittings PE2406 PE2708 pipe, polyethylene resin testing requirements to support ASTM D2513 UV exposure limits of polyethylene compound TN 47 2013 105 Decker Court Suite 825 Irving TX 75062 P 469 499 1044 F 469 499 1063 www Plasticpipe.org foreword this technical note was developed and published with the technical help and financial support of the members of the plastics pipe institute the members have shown, page 1 of 5 ASTM D2513 Comparison of 1999 vs 2009 editions Summary document background over the past fifty years or more the natural gas distribution industry in the US has made a remarkable, 1 1 this specification covers requirements and test methods for material dimensions and tolerances hydrostatic burst strength chemical resistance and rapid crack resistance of polyethylene pipe tubing and fittings for use in fuel gas mains and services for direct burial and reliner applications, ASTM D2513 standard specification for polyethylene PE gas pressure pipe tubing and fittings, 1 scope 1 1 this specification covers requirements and test methods for material see appendix X1 dimensions and tolerances hydrostatic burst strength chemical resistance and impact resistance of plastic pipe tubing and fittings for use in fuel gas mains and services for direct burial and reliner applications, Distribution Integrity Management Frequently Asked Questions revised or added since 7914c4a7 with the incorporation of ASTM D2513 09a for polyethylene PE effective March 6, 2015, because performance matters and safety is top priority performance pipe gas distribution pipe and fittings are certified to comply with ASTM D2513 and CSA B137 4, 1 1 this specification covers requirements and test methods for material dimensions and tolerances hydrostatic burst strength chemical resistance and rapid crack resistance of polyethylene pipe tubing and fittings for, 11 ASTM D2513 87 standard specification for thermoplastic gas pressure pipe tubing and fittings ASTM D2513 87 IBR approved for §192 63a 49 CFR 192, this specification covers the requirements and test methods for material dimensions hydrostatic burst strength tensile strength chemical resistance sustained pressure heat fusion and impact resistance of plastic pipes tubing and fittings used for direct burial and reliner applications in fuel gas mains and services for the distribution of natural gas, metfit fittings meet the requirements of ASTM D 2513 and requirements of the plastic mechanical specification F1924 the metfit pressure rating far exceeds every PE pipe or tubing it can be properly joined to, in para 814 1 3 b there is a reference to appendix A4 of ASTM D 2513 that should actually be to annex A3 of ASTM D 2513 814 1 3 plastic pipe and components

FREQUENTLY ASKED QUESTIONS Plastics Pipe Institute
July 9th, 2018 - Why is it possible to see ASTM D2513 ASTM F2619 and API 15 LE on the same pipe printline ASTM
F2619 and API 15LE are generally used for PE pipe in oil and gas gathering applications. ASTM D2513 may be added to PE line pipe in situations where there is a potential concern that non-jurisdictional pipe may get reclassified as jurisdictional.
