The plague, also known as the bubonic plague and many other names, devastated European society by affecting its economy, social structure, government, and church in a series of outbreaks taking place years apart for over 300 years. The black death of Europe that occurred was the second of the three great waves to sweep the world. The plague began in the mid-14th century, and its virulent form after the great plague of Marseille in 1720-1722 is notable.

During the mid-14th century, the black death swept through Europe, affecting much of Eurasia. This pandemic was particularly devastating to European society, leading to significant changes in politics, economy, and culture. The plague had a profound impact on the European economy, social structure, government, and church, as it spread in a series of outbreaks taking place years apart for over 300 years.

In the 14th century, the black death began to sweep through Europe, affecting much of Eurasia. This pandemic was particularly devastating to European society, leading to significant changes in politics, economy, social structure, government, and church, as it spread in a series of outbreaks taking place years apart for over 300 years.
